# MEDIA RELEASE

## NO REASON FOR CONCERN OVER CONCRETE PARAPET ALONG TRACKS

**Kuala Lumpur, 25 September 2020:** Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) wishes to respond to recent posts and comments in social media and chat groups regarding a piece of the concrete parapet wall along the MRT Kajang Line elevated guideway at Kota Damansara.

Some of the posts and comments have stated incorrectly that a piece of the concrete parapet wall was “dangling” and “in danger of falling”.

MRT Corp together with Rapid Rail Sdn Bhd, the operator of the MRT Kajang Line, have conducted an inspection of the section of the elevated guideway and found the piece to be properly and securely fixed.

The gap that can be seen between the parapet pieces are designed as such. The parapets have been placed in an angle to cater to the widened guideway near the station.

In view of this, MRT Corp wishes to assure everyone that there is no reason for concern as there is no risk of the parapet piece being dislodged. Regular checks are also conducted on all assets of the MRT Kajang Line to ensure that they are in good order and do not pose any danger to the public.

MRT Corp understands the public’s concern and thanks the public for raising this issue with MRT Corp.
